

Submission Worksheet

Submission Data

Course: IT114-004-S2026

Assignment: IT114 Module 1 Checkpoint

Student: Stefan I. (si329)

Status: Submitted | **Worksheet Progress:** 100%

Potential Grade: 10.00/10.00 (100.00%)

Received Grade: 0.00/10.00 (0.00%)

Started: 2/9/2026 11:00:07 PM

Updated: 2/9/2026 11:07:43 PM

Instructions

- Overview Video: <https://youtu.be/xlS-nqFfink>

1. Ensure you've followed the lessons to set up your GitHub, git, and VS Code
2. Fill in the below tasks (note: it'll save as you go)
3. Once everything is filled in, ensure you click "Submit and Export PDF"
4. Upload the PDF to GitHub in a Module1 folder
5. Find the downloaded PDF and move it into the location of your local repository folder (don't use the Github upload option as we want to practice the git commands)
6. Use `git add .` to track all file changes (i.e., the PDF)
7. Use `git commit -m "Uploading M1 PDF"` to record the change and provide a meaningful message
8. Use `git push origin main` to move the changes to the remote repository's main branch (Note: Future assignments will have a dedicated branch name for their work)
9. Take the same PDF and upload it to the Canvas submission

Section #1: (10 pts.) Tasks

Progress: 100%

Task #1 (2.22 pts.) - Screenshot of VS Code Extensions for this class

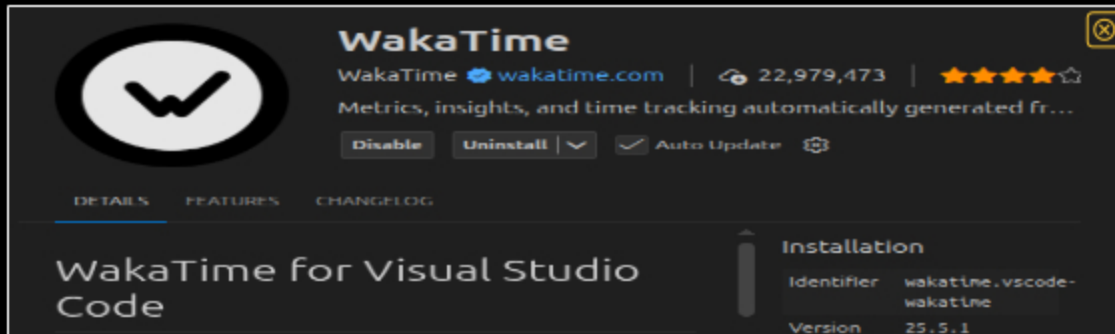

Progress: 100%

Details:

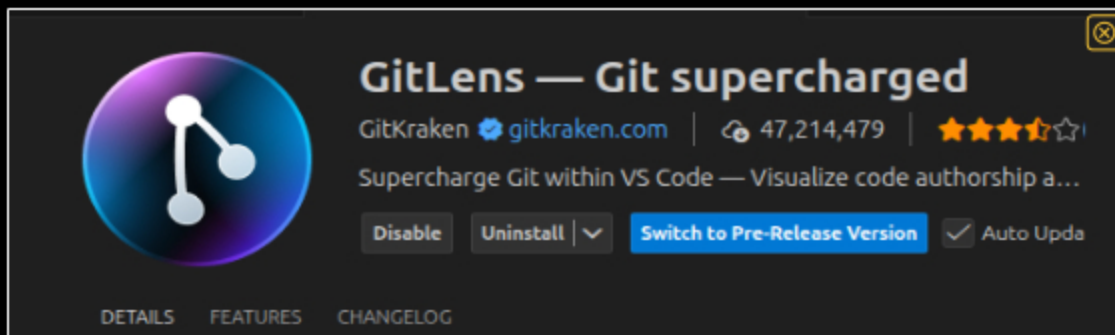

- Ensure you have the following extensions
- Java (Oracle's, RedHat's or any other valid one)
- WakaTime
- Git Lens

```
stefan@jonovski:~$ java -version
openjdk version "25.0.2" 2026-01-20
OpenJDK Runtime Environment (build 25.0.2+10-Ubuntu-124.04)
OpenJDK 64-Bit Server VM (build 25.0.2+10-Ubuntu-124.04, mixed mode, sharing)
stefan@jonovski:~$
```

Shows Java version (I can run Java thru VScode & also create projects using CTRL+SHIFT+P but I'm not sure which extension I have)

The image shows the WakaTime extension page in Visual Studio Code. On the left is the WakaTime logo, a black circle with a white 'W'. To the right of the logo, the text 'WakaTime' is displayed in a large, bold font. Below it, the website 'wakatime.com' is listed with a blue icon. Further right, the download count '22,979,473' is shown next to a star rating of four stars. Below this, a description reads 'Metrics, insights, and time tracking automatically generated fr...'. There are three buttons: 'Disable', 'Uninstall' (with a dropdown arrow), and 'Auto Update' (checked). At the bottom, there are tabs for 'DETAILS', 'FEATURES', and 'CHANGELOG'. On the right side of the page, under the heading 'Installation', there is a table with two rows: 'Identifier' with the value 'wakatime.vscodewakatime' and 'Version' with the value '25.5.1'.

Shows wakatime installation

The image shows the GitLens extension page in Visual Studio Code. On the left is the GitLens logo, a purple circle with a white Git branching diagram. To the right of the logo, the text 'GitLens — Git supercharged' is displayed in a large, bold font. Below it, the website 'gitkraken.com' is listed with a blue icon. Further right, the download count '47,214,479' is shown next to a star rating of four stars. Below this, a description reads 'Supercharge Git within VS Code — Visualize code authorship a...'. There are four buttons: 'Disable', 'Uninstall' (with a dropdown arrow), 'Switch to Pre-Release Version' (highlighted in blue), and 'Auto Upda' (checked). At the bottom, there are tabs for 'DETAILS', 'FEATURES', and 'CHANGELOG'.

Shows Gitlens installation

Task #2 (2.22 pts.) - Screenshot of WakaTime Setup

Progress: 100%

Details:

- Visit the WakaTime site
- Click the "Projects" tab and find your repository and select it
- Include a screenshot of the top part that shows the overall time and the repository name
- Scroll down and screenshot the bottom portion that shows the individual files/branches and include that. (You won't need to capture the visuals)

top part of the wakatime screenshot

Files		Branches	
3 mins	MyClass.java	3 mins	Practice
24 secs	myFile.txt	0 secs	main
0 secs	README.md		

files at the bottom portion

 Saved: 2/9/2026 11:04:00 PM

Task #3 (2.22 pts.) - Demonstrate that you have the JDK available

Progress: 100%

Details:

- Run `java --version` in the terminal
- Run `javac --version` in the terminal
- Record the output (both should be the same version and yield no errors).

```
stefan@jonovski:~$ java -version
openjdk version "25.0.2" 2026-01-20
OpenJDK Runtime Environment (build 25.0.2+10-Ubuntu-124.04)
OpenJDK 64-Bit Server VM (build 25.0.2+10-Ubuntu-124.04, mixed mode, sharing)
stefan@jonovski:~$
```

Shows java installation (copied from previous screenshot).

Task #4 (1.11 pts.) - Provide Info about your Github Repository

Progress: 100%

Part 1:

Progress: 100%

Details:

Show the Collaborators page with an invite sent out to me MattToegel and the grader(s)/TA(s) (if applicable: see Canvas announcements)

Task #5 (2.22 pts.) - Reflection

Progress: 100%

Details:

- Did you have any issues/problems this module? If so, what were they and how

did you solve them?

- Did you learn anything new this module? If so, provide some brief details.
- If both answers were no, briefly explain your prior background.

Your Response:

1. Not really. There were some problems using Linux but they were easy fixes using my existing understanding of APT.
2. I learned how to use Github, how to push/pull & commit and the ultimate point of the Git filesystem.
